EXPERIENCE *The Guild Reaches*

Software Engineer Intern · [MakerMods](#) · Jul 2026 – Sep 2026

TYPE Internship
STACK Python · React · TypeScript · PyTorch · Hugging Face · LeRobot
SCOPE Robot-learning platform across 3 robot arms
ROBOT ARMS Metal Arm · MakerArm · Custom SO-101

- ✦ Wired LeRobot CLI workflows (calibration, teleoperation, recording, training, deployment) into a no-code web dashboard
- ✦ Added DAGger-based coaching so users can take over a trained policy mid-rollout and feed corrections back into training
- ✦ Shipped a Hugging Face Hub-streaming dataset viewer, removing full downloads just to preview data
- ✦ Built live 3D URDF visualization during teleoperation and cross-arm safety gating across three robot arms

PROJECTS *The Forge*

Jev Prune for Claude Code

TYPE Local proxy + CLI
STACK TypeScript · Node.js

- ✦ Built a local proxy between Claude Code and the Anthropic API that prunes stale tool results from context
- ✦ Prunes automatically near 120K tokens, only between tasks, and passes requests through unchanged if the pruning service is down
- ✦ Shipped a CLI with stats, doctor, and self-update commands, plus multi-terminal support with crash restart

The Pruner's Shears

Tab Tamer

TYPE Browser extension

STACK JavaScript · Chrome & Safari Web Extensions

- ✦ Sorts open tabs into Focus now, Read later, Off track, and Your call based on a stated goal
- ✦ Added a confidence slider that controls how many tabs go to manual review
- ✦ Built a preview-only cleanup review that flags finished, redundant, and stale tabs without closing anything

The Shepherd

CancelWatch

TYPE Web app

STACK Next.js · TypeScript · Supabase · Resend · Vercel

- ✦ Emails parents before a kid-activity membership's cancellation notice window closes
- ✦ Computes cancel-by deadlines from start date, renewal cycle, and notice period, rolling forward each cycle
- ✦ Uses passwordless private-link accounts and a daily Vercel Cron job for 3-day and 1-day reminders
